## USEFUL AND UNIQUE

This size of the Samoa was cut to meet the demands of circular work in connection with or without other sizes. The series has had a large and increasing sale, which goes to show how valuable it is with every artistic printer

The and ©

One of the peculiar features of this series is, that the lower-case letters B, D, H, M, N, P, Q and Y can be used to represent Q, P, Y, W, U, B, D and H; capital M makes W; figure 7 makes L, and figure 6 makes 9, by merely inverting them—an important item to the printer when short of "sorts." The letters line both ways. Logotypes of each size also furnished.
